Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 22 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The range 40-80 % Pt and 20-60% Pd is new matter. The specification has basis for 40/60 or 60/40 Pt/Pd in the Table, but does not readily envisage a range greater than that in the examples (the range including 20-40% Pt and 60-80 % Pt).

Allowable Subject Matter

Claims 23-24, 30, 37, 39-54, 55, 57-64, 66-73, 75-82 are allowable over the prior art.

Response to Amendment

The 103 rejection over Franz is withdrawn. Applicant's point is well taken that the new claim limitation of a flexible member that bends, flexes, twists or is deformed during operation of the microelectromechanical device is not suggested by Franz. However, the new range in claim 22 is not suggested by the originally filed specification.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
